Support:

- To date, IVF, ICSI, testicular biopsies, oocyte and embryo biopsies, cryopreservation, and thawing cycles are not covered by basic insurance or supplemental insurance.
- Insurance generally only covers infertility treatments that are considered medically necessary. Supplementary insurance may be applicable, depending on the respective conditions.
- **Before starting treatment, we encourage you to check with your health insurance provider about any coverage and to discuss with your doctor to find out the financial investment required.**

Our team is also at your disposal and will be happy to answer your questions.
